

Why pay more for your UNIX* computer?

Unison

The Australian UNIX* Solution

Since the plunge of the Australian dollar, imports are looking pretty expensive.

The Email Unison Computer is designed and manufactured in Australia, and in addition to a significant price advantage, offers these benefits:

- The Email Unison comes with 12 months Hardware Warranty†.
- Having designed and installed many Unix* - based systems in Australia, we have the expertise and experience to help you implement your Unix* solution.
- The Unison D10 and the larger Unison D21 are fully compatible enabling you to upgrade easily.
- A simple phone call connects you with the professional resources of our Customer Service Group.
- Unison Computers are currently used by: Melbourne University, CSIRO, Telecom, Mentone Radiology, Royal Melbourne Institute of Technology, Ford Motor Co. of Australia Ltd., BP Australia, City of Waverley, Museum of Victoria, Defence Research Centre Salisbury, Victorian Grants Commission....

- Email is an Australian Company employing approximately 9000 people.
